

Down Like That

Aaron Cole

He made me for this moment I can't lose
I'm gon' win no matter what you do
I ain't going down like that

I was built for this thing
God knew I was built for this thing
I ain't been a saint
He show me love anyway
I hear you talking a way
Get out of my face
He knew His plans for me
This for my family, family
You living a fantasy if you think you can handle me
705 Chester street where it all started in a condo
All we had was the ray and john got me feeling like Rondo
13 years I been in this thing and I still ain't even reached my peak
Everything that I need already living up inside of me
Just a Walmart mic and a dream
Using hip hop ej 4 feeling mean
Sleeping on church floors in the summer 14
Fam stayed together like young Al Green
Rapping bars at them chicken dinners
For all of y'all that think that we beginners
I'm on my way
So all I'ma say

He made me for this moment I can't lose
I'm gon' win no matter what you do
I ain't going down like that

I ain't going down no nah
Everything I want in the sky
You won't get me out my rhythm don't try
I'ma keep winning 'til I die
I do this day to day
What more can I say I'm Jay
He got me I know I'm straight so I'ma just fadeaway
Strangers saying that they proud of me
Others they just probably mad at me
Got pressure on my back
My momma need a stack
So really all the blocking flatter me
Cause I cannot quit you insane
My world is just different Dwayne
Can't do this in vain
Winning was birthed in my veins
Set it off Vivica A
So all I'ma say

He made me for this moment I can't lose
I'm gon' win no matter what you do
I ain't going down like that
I won't lose
