

Einstein

Aaron Cole

I'm just giving thanks don't know where to start
Once I get started I won't ever stop
I'm just looking back made it from the gutter
Albert Einstein man I'm very smart

I'm just giving thanks don't know where to start
Once I get started I won't ever stop
I'm just looking back made it from the gutter
Albert Einstein man I'm very smart

We figured out
I got the clout
Randy Moss
Look at my route
All cause of God
That's what I'm about
I got these blessings
All by the pound
It's a vibe everywhere we go
I hear my songs on the radio
They sing my songs yeah at all my shows
Watch me level up passing all my foes
Cause we ain't done yeah we bout to go up
When I'm down yeah that's when he show up
Diamonds in my ears yeah the boy done glowed up
I'm living in favor
Nothing left to say but

I'm just giving thanks don't know where to start
Once I get started I won't ever stop
I'm just looking back made it from the gutter
Albert Einstein man I'm very smart

I'm just giving thanks don't know where to start
Once I get started I won't ever stop
I'm just looking back made it from the gutter
Albert Einstein man I'm very smart

They not in my range like a rover
Yeah I know they doubting I'm like so what
Undenying grace that's how the Lord work
I've been down before I'm moving forward
Look at where we came look at where we came
I done bossed up like I'm Major Payne
Go ahead and put me in the hall of fame
When I shoot the 3 hey I win the game
I ain't been the same
I don't need a thing
Cause my wrist is clean
And so is my team
Got no enemies
Just endless possibilities
I'm living in favor

I'm just giving thanks don't know where to start
Once I get started I won't ever stop
I'm just looking back made it from the gutter

Albert Einstein man I'm very smart

I'm just giving thanks don't know where to start
Once I get started I won't ever stop
I'm just looking back made it from the gutter
Albert Einstein man I'm very smart
