

I'ma get it, that's fasho
I envision and then I go
I don't never look back, I'm the GOAT
Pray hard and then I work and that's fasho
I'ma get it, that's fasho
I envision and then I go
I don't never look back, I'm the GOAT
Pray hard and then I work and that's fasho

Pops always told me work for what I want
Always did when they told me that I won't
So I don't understand the spoiled tip
My parents money spoiled rich I been on my own kick
That I'm gon' have the world gripped
I just tuck my head and then I work and then I pray
Satan tryna get me off my game but he my prey
Always wanted to be more I'm feeling like I'm Ray
I slept in Super 8s and now I'm chilling with the greats
Diligent I'm a rocket
Reading James like I'm Harden I'm Chris Breezy I'm popping
No more games time to lock in
God say the plan and I'm on it
Going for my dreams yeah I'm on a ultra beam

I'ma get it, that's fasho
I envision and then I go
I don't never look back, I'm the GOAT
Pray hard and then I work and that's fasho
I'ma get it, that's fasho
I envision and then I go
I don't never look back, I'm the GOAT
Pray hard and then I work and that's fasho

I don't get tired of the winning
Galatians 6:9 get use to my grinning
I ain't out here playing tennis you either with it or against it
Doing push ups while I got all these lames extra chilling
When I came to this side it was clear to me
That these dudes ain't really who they pretend to be
Never understood why artists don't grind hard
Then it came to me they been eating caviar
Never performed with four people in the crowd
They never had to worry bout dudes messing up the sound
I bet they never had they team sleeping on the floor
Skipping leg day bet they never even got sore
I bet they first tour was a world wide tour
Bet they biggest worry was what type of contour

I'ma get it, that's fasho
I envision and then I go
I don't never look back, I'm the GOAT
Pray hard and then I work and that's fasho
I'ma get it, that's fasho
I envision and then I go
I don't never look back, I'm the GOAT
Pray hard and then I work and that's fasho
