

Hold Me Close

Aaron Cole

Dark Child (Yeah)

Seen all the world and all they places
Somehow it's never enough
Seen all the smiles on all they faces
Some say enough to fall in love
I don't wanna commit to something
Givin' up my love just because
You know me enough to call my bluff
Yeah

So here, right now, I'm falling in your arms
I feel your love, I'm never goin' too far
No fear, no doubt, I'm finally letting go
I've seen enough to know
That you'll hold me close and promise you won't let me go, oh

Hold me close and promise you won't let me go, oh
Hold me close and promise you won't let me go, oh
Hold me close and promise you won't let me go, oh
Hold me close and promise you won't let me go

I don't need you thinkin' I'ma sit back (Sit back)
When I move without you, I get whiplash (Whiplash)
Diamond rings, all the bling, yeah, I did that (Did that)
Know I really need you, that's big facts (Big facts)
And you waited for me to get back (Yeah)
You've been puttin' me first when I been last (Yeah)
And you give me joy when I've been sad (Oh, yeah)
You said, "I'll never leave," I believe that

So here, right now, I'm falling in your arms (Your arms)
I feel your love, I'm never goin' too far (Gone too far)
No fear, no doubt, I'm finally letting go (Letting go)
I've seen enough to know
That you'll hold me close and promise you won't let me go, oh (You won't let me go)

Hold me close and promise you won't let me go, oh (You won't let me go)
Hold me close and promise you won't let me go, oh (Oh, yeah)
Hold me close and promise you won't let me go, oh (You won't let me go)
Hold me close and promise you won't let me go

Yeah, you won't let me go
Uh, you won't let me go
Uh, yeah, I know you're holdin' on, holdin' on, yeah
