

Making History

Aaron Cole

Okay I made it out my mama's house
Grown man things now
Different walk but the mission look same now
Lay it down nah I'll lay down in my grave
I know I'm rare but it's just too much up at stake
Give me faith
So I can walk through the valley
I got my people around me
Shakur the bag like it's Cali just making moves
Like it's 1999 it's historic cause God making me to shine

All the rumors that you heard is true
I'm the hype I'm the living proof
Don't hate me cause He made me this crazy
It's just history baby
All the rumors that you heard is true
I'm the hype I'm the living proof
Don't hate me cause He made me this crazy
Made me this crazy

I'm making history baby
We making history baby
We making history baby
I'm making history baby
Ain't no mystery baby
We making history lately
Cause we the rookies of the year
All I see is devils in my rear
We making history baby
It's just history baby

This that Diana Ross singing with The Supremes
It's Barack being the president you know what I mean?
This that Moses using the staff and parting the sea

The snakes ain't killing us
