

# Off My Back

Aaron Cole

I'm tryna feelin' okay  
Come and take my pain away  
Come and get this weight up off my shoulders  
Watch me levitate, aye aye  
Off my back  
Gotta get it off my back  
Gotta get it off my back  
Gotta get it off my back

I'm tryna feelin' okay  
Come and take my pain away  
Come and get this weight up off my shoulders  
Watch me levitate, aye aye  
Off my back (off my back)  
Gotta get it off (gotta get it off) my back  
Gotta get it off (gotta get it off) my back  
Gotta get it off my back

I'm tryin' to keep me smile  
But they been keeping me down  
Need you to light up my soul  
I'm tryin' to put up a sound  
I can't not fight with the flesh  
Take over keeping me blessed  
I know it's part of the test  
They tryin' to take out my fresh  
If he can't get me he'll get my family  
Get away from my family  
God protect my family  
I'm tryin' to keep my sanity  
God handle my light work  
While I'm out here doing light work  
Giving yo all well that might work  
Ain't no dirt even on my shirt

They tryin' to kill my vibe  
Tryin' to take my life  
I cannot disguise  
Feel like suicide  
But I'm God's child

I'm tryna feelin' okay  
Come and take my pain away  
Come and get this weight up off my shoulders  
Watch me levitate, aye aye  
Off my back  
Gotta get it off my back  
Gotta get it off my back  
Gotta get it off my back

I'm tryna feelin' okay  
Come and take my pain away  
Come and get this weight up off my shoulders  
Watch me levitate, aye aye  
Off my back  
Gotta get it off (gotta get it off) my back  
Gotta get it off (gotta get it off) my back

Gotta get it off my back

Man I'm just feeling a mess  
My sister friends with my ex  
She just been hitting my phone  
I gotta let that thing go  
My family falling apart  
It's eating up at my heart  
I don't know where this gon' go  
But you been there from the start  
I can't lie  
I be bout to cry  
But I'm not that guy  
I suck that up  
Cause you know what's up  
But I can't overlook  
Cause it's in my face  
Boy I gotta have that faith  
When it don't go my way  
Ain't much to say  
You make no mistakes  
Gotta trust you through this pain

They tryin' to kill my vibe  
Tryin' to take my life  
I cannot disguise  
Feel like suicide  
But I'm God's child

I'm tryna feelin' okay  
Come and take my pain away  
Come and get this weight up off my shoulders  
Watch me levitate, aye aye  
Off my back  
Gotta get it off my back  
Gotta get it off my back  
Gotta get it off my back

I'm tryna feelin' okay  
Come and take my pain away  
Come and get this weight up off my shoulders  
Watch me levitate, aye aye  
Off my back (off my back)  
Gotta get it off (gotta get it off) my back  
Gotta get it off (gotta get it off) my back  
Gotta get it off my back
