

ONE REASON

Aaron Cole

Nobody warned me life was gonna be full of problems
Always at the worse times when you least expect
I tell everyone I'm good cause nobody really cares at the bottom
Running for my life while I'm tryna catch my breath

Went through the fire but it could have been worse
I don't need to understand
Cause Your promise is the way that You work
And You always have a plan
Even if I can't see it
I've always got a reason
I can always find one reason to thank You
I can always find one reason

I never thought I would ever see the day I'd be okay
I handed all my hope to the doubts in my mind
And how could I forget You're the one that makes a way out of no way
It took all of my darks days for me to see the light

Went through the fire but it could have been worse
I don't need to understand
Cause Your promise is the way that You work
And You always have a plan
Even if I can't see it
I've always got a reason
I can always find one reason to thank You

When my back against the wall (I can always find one reason to thank You)
And through all of my flaws (I can always find one reason to thank You)
And even if I fall (I can always find one reason to thank You)
And even if I lose it all (I can always find one reason)

Cause when I think of the things that You've done
Got no choice but to thank You
When I think of the things that You've done
I've got no choice but to thank You
I can't believe all the things that You've done
Got no choice but to thank You
All the things that You've done
Got no choice but to thank You

Even when I can't see it
I've always got a reason
I can always find one reason to thank You

When my back against the wall (I can always find one reason to thank You)
And even if I fall (I can always find one reason to thank You)
No matter what I'm walking through (I can always find one reason to thank You)
You're still worthy Lord
I can always find one reason
