

ONLY U

Aaron Cole

Only you, only you can
Only you, only you can, yeah

Only you, only you can
Only you, only you can, yeah

Life, it don't get easy
But it's better when you're with me
Sometimes I put my faith in people
But there really ain't no equal

Never met someone that don't change
The same Monday up to Sunday
Even at a young age
You been holding me the whole
Let me sit back 'cause it's your show
But Imma sit up on the front row
Don't gotta tell you, you already know
Yeah, it's you alone

Only you can do the things you do
Create the sun and the moon
And hold it all down you always prove that
Only you can do the things you do
You breathe life and made me new
My worst days you bring me through
Only you...

Sometimes I wonder do you hear me
Yeah, you know how my fears be
But that don't change your love, though
You keep on giving me the cheat codes

Never met someone that stay true
In the clouds or the clear blue
Don't nobody ever compare
I swear it's like you playing solitaire
It's like the demons, they won't let me go
And I'm tryna keep my head afloat, no
Don't gotta tell you, you already know
And you in control

Only you can do the things you do
Create the sun and the moon
And hold it all down you always prove that
Only you can do the things you do
You breathe life and made me new
My worst days you bring me through
Only you...
