

Don't know why I would question it
Don't know why I would doubt
When it all looked impossible
You had it all worked out
Don't know why I would bet against
The one who always comes through
Don't know how I could box You in
'Cause You always break through

And I
I just need to testify
You've been faithful in my life
I just need to testify

I don't need to see more proof
'Cause I know what my God can do
It's too much to ignore, can't doubt it anymore
I don't need to see more proof
I don't need to see more, more, more, more (That the Lord is good)
I don't need to see more proof

I know every now and again
I start to forget
But You're always remindin' me
Just how good that You've been

And I
I just need to testify
You've been faithful in my life
I just need to testify

I don't need to see more proof
'Cause I know what my God can do
There's too much evidence to doubt Your faithfulness
I don't need to see more proof
I don't need to see more, more, more, more (That the Lord is good)
I don't need to see more, more, more, more
I don't need to see more, more, more, more (That the Lord is good)
I don't need to see more proof

All the seas that You've parted, You're just gettin' started
Believe it wholehearted, that the Lord is good
And the walls that You're breakin' are just the beginning
I've tasted and seen it, that the Lord is good
All the seas that You've parted, You're just gettin' started
Believe it wholehearted, that the Lord is good
And the walls that You're breakin' are just the beginning
I've tasted and seen it, that the Lord is good

I don't need to see more (Proof)
'Cause I know what my God can do
There's too much evidence to doubt Your faithfulness
I don't need to see more proof
I don't need to see more, more, more, more (That the Lord is good)
I don't need to see more, more, more, more (That the Lord is good)
I don't need to see more, more, more, more (That the Lord is good)
I don't need to see more proof
