

## Proud

Aaron Cole

From coffee shops to arenas in the blink of an eye  
Seems like yesterday I would try to tell me friends I was hot  
I told my crew that I would be in the paper  
Went from the paper to the news and just sometime later  
I'm in another country whole crowd singing my words  
It's crazy God let me reach from the hood to the burbs  
I gotta put You in the center like You Cartwright  
Cause it don't mean a thing if I don't got my heart right  
Grown man things but I still ain't on my own  
You ain't a grown man just cause you paying for your phone  
A wise man learn from another man's mistakes  
A fool just tries to learn on his own  
I'm yelling Lord take me home to that promised land you promise  
d me  
I ain't always listen to my pops but he proud of me  
Yeah You the truest of the friends  
And I promise in the end

I'ma make You proud  
I promise I'ma make You proud  
I know You gon' hold me down I promise I'ma make You proud

I can't even lie to myself  
I'd be more messed If I tried this myself  
Wheels turning like I'm Tina  
I'm tryna be you're twin you Tamera and I'm Tia  
Pursuit of happiness like I'm Will  
I'm just tryna' do everything in Your will  
Your plan is efficient forget how I feel  
Going for the ring I'm Kobe and You Phil  
I know I mess up I know fall down  
But there good like you working for the law now  
Born in to sin was never born to be perfect  
I may have some scars but remember we stay working  
If you looking for some fakes you can find 'em  
We just a whole bunch of adams like Yolanda  
You the truest of the friends  
And I promise in the end

The comeback always stronger than a setback and in the end I be  
t that
