

# SLOW DOWN

Aaron Cole

We been stuck at third base  
We been too close, this not a game to play in the first place  
Even though we grown, we still make the same ol' mistakes  
We got stains on our purity now, we should stop 'fore it's too late

We goin' 90 miles per hour, girl, you drive me up a wall  
I seen the red inside your eyes and I don't wanna be a dog  
Baby, don't give me a green light, I don't wanna fall  
If we keep playin' wit' fire we gon' crash the car

We need to slow down  
Think that we should slow down  
Maybe we should slow down  
Baby, we should slow down  
Oh, oh

I know what you think when we together  
We should draw the line 'fore we cross over it  
Over it  
We can't lose our focus, this is not how we approach this

Treat my heart like it's a token, don't you break it, it's been broken  
It's been commotion, we been coping  
Think he gave us an omen  
All the signs he showin'  
Should stop, but we in motion, we going

90 miles per hour, girl, you drive me up a wall  
I seen the red inside your eyes and I don't wanna be a dog  
Baby, don't give me a green light, I don't wanna fall  
If we keep playin' wit' fire we gon' crash the car

We need to slow down  
Think that we should slow down  
Maybe we should slow down  
Baby, we should slow down  
Oh, oh

Maybe we should slow down, baby  
Baby  
Baby  
We gotta slow down
