

There For Me

Aaron Cole

Aye, yeah, it's crazy
I knew what I wanted ever since age 3
They was on Disney, I was on Jay-Z
Born for this thing so don't play me, don't play me
I ain't have cable but I had you
Performed to 50,000 people in the bathroom
Turn my bad news in to mad views
Yeah, I have you I'm glad too

Through the ups and the down
You stayed down
Yeah, always had my back
You been the same never changed
And I love you for that
I won't be surprised if they hate on the side
They can stay one the side
Cause you always gon' ride

You been there for me
All I really know
You been there for me
All I really know right now
You been there for me
There for me
You been there for me
There for me

Aye, yeah, that's a mood
You love me for all these girls thought I was cute
Big head boy from Virginia that's the truth
You believed in the underbite kid with the suits
Yeah, I had the suits
We had rough times but we made it
I was skipping meals up on the daily
Taking Lyft's to the stu dedicated
Now look at us we got the city going crazy

Through the ups and the down
You stayed down
Yeah, always had my back
You been the same never changed
And I love you for that
I won't be surprised if they hate on the side
They can stay one the side
Cause you always gon' ride

You been there for me
All I really know
You been there for me
All I really know right now
You been there for me
There for me
You been there for me
There for me

(All I really know you been there...)

Through the ups and the down
You stayed down
Always had my back
You been the same never changed
And I love you for that
I won't be surprised if they hate on the side
They can stay on the side
Cause you always gon' ride

You been there for me...
