

# Together

Aaron Cole

Unity

Never doubt the lord is on my side  
But I been ducking cause they shooting out side  
It's crazy that I'm still alive  
The world been on Fiyah  
Slave to the chains and whips with no drive  
It gets hard to keep going but I can't give up  
I know this all yours gotta give it up  
You gave me your heart I'm tryna share the love  
Tryna share the love

I, I'm choosing no side  
Looking up know he sit high  
2 or 3 together and I know he near by

I, I'm done choosing sides  
Watching all this time fly by  
2 or 3 together and I know he near know he near

Can we do this thing together, together, together?

Can we do it all together, together, together?

I know that it can get better, get better (better), together

If we did it all together, together, together

Side by side if you with me get them hands up high  
Side by side if you with me get them hands up high  
Side by side if you with me get them hands up high  
Side by side if you with me get them hands up high, hands up high

Unison

Heaven sent  
Harmony come and follow me  
Got a lot of dreams  
Need a lot of means  
For a better world  
For a better me  
For a better life  
These is scary nights  
Need to share the light  
We gotta get it right  
He made it beautiful  
So we gotta keep it beautiful

I, I'm choosing no side  
Looking up know he sit high  
2 or 3 together and I know he near by

I, I'm done choosing sides  
Watching all this time fly by  
2 or 3 together and I know he near know he near

Can we do this thing together, together, together?

Can we do it all together, together, together?

I know that it can get better, get better, better

If we did it all together, together, together

Can we do this thing together?
