Take my
Take my hand
Lead me and never let me go, hey
Take my
Take my hand
Lead me and never let me go, hey

Yeah
It took a lot of tears for me to reach this tier
They try spark as high as me, but they ain't got no air
I seen the life I'm living now, I'm having déjà vu
Sitting front row at all these funerals'll change you too
Yeah, meetings with legends, we eating Ruth Chris
Uh, already rich, don't need your two cents
This joy in my life, it's all hitting different
Showing the world my weaknesses, that's really Christian
Yeah, and I'm wearing Christian
They see the gains, that's 'cause we been through a lot of resistance
I can't party with y'all, I gotta ask the Mrs
And then I'm locked in, making records, so I'ma have to miss it
Uh, it's nothing personal
I just don't got the time if it ain't purposeful
You can't elevate just by staying the same, uh
So, I'm sorry but I had to change

Huh, huh, huh
Yo, what's going on?

You should look at me and know that God did it
Look, know I'm cold the way my fans keep it spinning
Look, if I can be honest, they been there since the beginning
When I got a lot of nas, but god said that it was written
Uh, huh
We did it
Uh, huh
We winning
Uh, huh
Life is hard, but God is good and I'ma witness
Uh, huh
I just keep on counting it up, I'm 'bout my business
Uh, huh
And you know I rep VA, I just left Richmond
Uh, huh

Look, I keep going for the ones I lost, gotta make 'em proud
Even though life be lifing, show this million-dollar smile, aye, look
Gave my life to God and I'd still double down, aye
Without His grace, I know I wouldn't be here now, aye
Too many times, won't pose to make it this a blessing
You want the life, you gotta make the right investments
Look, my girl, she not Monique, but she's still precious
Growing into the new me and it's impressive
Funny seeing you here, used to laugh at us when we was in the dark
Now you trying to come our way, with that we was there from the start
Aye, probably seen the charts, aye
Yeah, probably seen the crib, aye
Probably seen us at the Doves, dappered down, probably seen us take the win

Packed in on Chester street, that's where I learned from the best
Knew it'd all work out, let the Lord lift it off my chest
Had J's when we ain't have nothing, I seen moms finesse
It was pennies she had to stretch
Know the harder brought success
Look, Mama, never stress
Look, Mama, I been changed
Yeah
