

Turn it up some
I can't believe it, I can't believe it
Yeah, let's get it, look

Ayy, I never had applauses but we was ballin'
I was busy gettin' money while your girl was callin'
They didn't believe that this could happen
My momma called this (She did)
Smile up on my face 'cause I'm young and flossin' (Floss)
I couldn't love, I didn't make it
B, I wasn't workin' (Uh, uh)
Had temple up the beats while I lay these verses
All my homies can't believe I made it without cursin'
My rappin' was the only way they stepped foot in churches
My mind was swimmin' in doubt (Doubt)
That's why I struggle with pride (With pride)
Pops was workin' three jobs and was a barber just to provide
Now I'm showin' my mom the legends that sit in my phone
She losin' her mind (Oh my God)
My God is rewindin' because I keep gettin' better and better with time, yeah
(Let's get it)

Yeah, used to duck the landlord but we on now
Seein' trees from the seeds that we sowed now
Lookin' back how far He brought us, we was so down (So down)

Still waitin' for some of my family members to really start puttin' the drug

Lost too many to the pill, I'm tryna give my family the key (Key)

I walk in stores, the ones they say they hated say they always knew (I always
knew)
Everything I do I do just to inspire my hood (My hood)

I did everything I said I could (I could)

Seein' trees from the seeds that we sowed now
Lookin' back how far He brought us, we was so down (So down)
