

## Down

Aaron Doh

And when I'm feeling down, I wish you'd come around  
You never pick your phone up you always just put it down  
You never answer text you leave that ish on read  
You got back with your ex and you listen to your friends  
But all your friends are fake the ones that think that partys r  
eal late are cool  
But baby there not though and baby there not though  
And I don't know why you're calling everynight and party all th  
e time

We can Netflix and chill or kick it for real  
Keep it on the low  
I won't put you in post  
No one has to know  
And baby you're gold, like diamonds and stones

I could show you the world if you just be my girl, baby come gr  
ab my hand we can walk through the sand yeah  
We can walk through the sand yeah  
We can go to the beaches like every weekend, show you off to my  
friends I promise they're chill  
Yeah they all know the deal  
They've been keeping it real

So we can Netflix and chill or kick it for real  
Keep it on the low  
I won't put you in posts  
Cause baby you're gold, like diamonds and stones

I've been hanging out with you alot and I don't know why you've  
been chilling with all these other guys  
Cause I just wanna love you and hold you, make you the one that  
I'm coming home to everynight  
Oh everynight, and everynight

We can Netflix and chill or kick it for real  
Keep it on the low  
I won't put you in post  
Cause baby you're gold, like diamonds and stones

Cause baby you're gold, like diamonds and stones
