

# Fighting For Love

Aaron Doh

(Hello)

I'm fighting for love  
This feeling above  
My heads in the clouds, I'm feeling this now and I won't come down  
I'm fighting for the feeling that I'm needing  
And I won't even stop if I am bleeding  
Look around and see the audience is fleeing  
And the energy around me so completing  
Yeah, it's so completing, oh it's so completing, oh it's so completing  
g, oh it's completing

I fight for this love  
I'm all on my own when people around me they throw sticks and stones  
They're breaking me down but I'll take the beating  
I won't listen to the thoughts that they [?] in

I was coming for my heart and for my soul  
Acting like I never even really knew  
Coming for me, trying to play me as a fool  
Got my emotions locked away but no parole

I wish you could see me now  
Show your words won't break me down  
Stronger than before  
I don't need you anymore, anymore, I don't need you anymore, anymore,  
I don't need you anymore

And I'm fighting for love  
Yelling so loud like there is no god above now  
But I just gotta love when I'm fighting for your love  
Got myself up on my own  
So many housed but I still don't have a home  
Prepared to stop me you will never even know  
Fighting for your love now  
Fighting for your love now, now-ow-ow  
Fighting for your love now

I'm fighting for love  
This feeling above  
My heads in the clouds  
I'm feeling this now and I won't come down  
(I'm fighting for love)  
(This feeling above)  
(My heads in the clouds, I'm feeling this now and I won't come down)

I wish you could see me now  
Show your words won't break me down  
Stronger than before  
I don't need you anymore
