

# Hold Me Down

Aaron Doh

If we do be more than friends  
Can we still chill if this all ends  
I don't wanna talk to much, but I'll hang with you  
The partys almost over baby please come through  
Right now  
Right now  
Right now

If you want to hold me down  
Show me what your all about  
I said I've been thinking bout you lately  
I just really wanna call you baby  
If that's not to much for you just stay please  
Please just come and chill, hang with me  
And just hold me down

I'm waiting for you by my bed hoping you'll just hit my phone a  
gain, again  
But if your gonna leave me alone, I don't even wanna be your fr  
iend, your friend  
Talk to me the way you can, need you till the bitter end, I jus  
t wanna talk to you the way we did  
The softest touch  
The sweetest kiss

If we do be more than friends  
Can we still chill in the end  
I'm standing right here, you're right next to me  
I wanna hold you closely, wanna hold you closely  
Mess with my mind, you're stuck on repeat  
If only you were with me, if only you were with me

I'm staring at the street, I'm blinded by the lights  
Reminiscing all the time and where my life has gone away, where  
my life has gone away  
Please just hold me down  
The stars are all reflecting down, shining on this quiet town  
I just wanna see you now tonight, tonight  
I'ma tell ya, I'll never fail ya  
Come to my place, I'll overwhelm ya

If we do be more than friends  
Can we still chill in the end  
You're holding me down, you're coming around  
You could be with me just come hold me down  
I'm holding you down, I'm coming around  
I could be with you just come hold me down  
Oh come hold me down
