

Love Hangover

Aaron Doh

I'm not telling you to change, driving me insane
Say you need to get things off your brain, now you're throwing things
If I argue back you're in your feelings lets just take a break
Can we take things slower
I'm just speeding down the lane driving so insane
I'm so scared for my life, I just wanna do this right
Can we take things slow

You just wanna fight I'm just tryna drive
This is everynight always ever night
And I'm to sober love hangover

(I don't really want a love hangover)
(I don't even really wanna talk to ya)
(The only one that I've got feelings for)
(A sip away from going under board)

Moving at the speed of light
Foggy head I don't feel right
I can't be with you tonight and I don't wish I was, no I don't wish I was, and I don't wish I was, no I don't wish I was

You thought I wouldn't go far but I won't slow down for you any more
Bet you wish I would, I bet you wish I would, I bet you wish I would, I bet you wish I would

I'm lost in this feeling I'm needing a moment
I'm trying to move on but you're so controlling, but you're so controlling

I'm not telling you to change driving me insane
Say you need to get things off your brain, now you're throwing things
If I argue back you're in your feelings lets just take a break
Can we take things slower
I'm just speeding down the lane driving so insane
I'm so scared for my life, I just wanna do this right
Can we take things slower

(Can we take things slower)
(I don't really want a love hangover)
(I don't really even wanna talk to ya)
(The only one that I've got feelings for)
(A sip away from going under board)
