

## Not Yourself

Aaron Doh

You don't smile no more, no it's not like before  
You don't laugh at my jokes, and you're constantly bored  
We don't have happy days, why are you feeling this way  
If you don't like the earth, than we can just go to space  
Cause were stars and we'll shine anyway  
Yeah were stars, oh were stars and we'll shine anyway

Why you changing up on me it all will be ok  
Now please just stop and chill with me I just want you to stay  
I really need to talk to you so please don't go away, away, no  
please don't go away  
You make me feel insane  
You're messing with my brain  
You're just running like, everything's ok  
You're just acting like, I don't know a thing

And I don't wanna talk to ya, but I just needa talk to ya  
Cause I just wanna be with you, please just talk to me

I wish you would stay with me, cause my bed is so lonely

Why you changing up on me it all will be ok  
Now please just stop and chill with me I just want you to stay  
I really need to talk to you so please don't go away, away, no  
please don't go away  
You make me feel insane  
You're messing with my brain  
You're just running like, everything's ok  
You're just acting like, I don't know a thing

You don't wanna talk to me, but I just need to talk to you  
You never wanna chill at all, you never wanna figure out the de  
tails  
I kinda need to talk to you, no I really need to talk to you  
But no you never listen to all the words I said  
Why'd you run away, I wish you would've stayed  
I've been hurting like, every single night, you were so my type  
I thought you would be the one, oh I thought you would the one,  
why were you not the one, why were you not the one

I wish you were the one
