

Silent Thoughts

Aaron Doh

I wanna see your face once more but
I can't stand to see your face no more cause
Your pretty little face just brings me pain, me pain, me pain
I just wanna see your face once more but
I can't stand to see your face no more cause
Your pretty little face just brings me pain, me pain, me pain
I've been thinking 'bout what we could be
If it's just you and me
If it's just you and me

I say
I just wanna see your face once more but
I really need to see your face once more cause

I just wanna call you baby
Cause I've been thinkin' 'bout you so much lately
I'm just thinking 'bout you so much all the time
I can't get you, I can't get you, I can't get you off my mind
I just wanna call you baby
Cause I've been thinkin' 'bout you so much lately
I'm just thinking 'bout you so much all the time
I can't get you, I can't get you, I can't get you off my mind

I just wanna see your face once more but
I can't stand to see your face once more cause
Your pretty little face just brings me pain, me pain, me pain
I just wanna see your face once more but
I can't stand to see your face once more cause
Your pretty little face just brings me pain, me pain, me pain
I've been thinking 'bout what we could be
If it's just you and me
If it's just you and me

I say
I just need to see your face once more cause
I really need to see your face once more cause
Please let me see your face once more
Don't go away, away, away
