

## Bars & Churches

Aaron Goodvin

We go there  
Runnin' from the empty lookin' for a little light  
Just another face in the crowd of the brokenhearted  
So we dance and we sing and pretend that we're all alright  
But we're not and we know it  
But we won't show it

There's one on every corner  
You ain't gotta look too hard  
And those doors'll swing wide open  
No matter who you are  
It's where Jesus knows to go  
To find the sinners and the saints  
It's where you hit your knees  
Say a prayer and take a drink  
Cause we're all hurtin'  
And we're all searchin'  
In bars and churches

Chasin' lonely  
Drownin' out the devil with the devil tryin' to drag you down  
Pourin' out your heart to the ear of a perfect stranger  
Hopin' that they'll listen that they'll care they'll give a damn  
But they just want the same thing too  
They came here just like you

Yeah there's one on every corner  
You ain't gotta look too hard  
And those doors'll swing wide open  
No matter who you are  
It's where Jesus knows to go  
To find the sinners and the saints  
It's where you hit your knees  
Say a prayer and take a drink  
Cause we're all hurtin'  
And we're all searchin'  
In bars and churches

There's one on every corner  
You ain't gotta look too hard  
And those doors'll swing wide open  
No matter who you are  
It's where Jesus knows to go  
To find the sinners and the saints  
It's where you hit your knees  
Say a prayer and take a drink  
Cause we're all hurtin'  
And we're all searchin'  
In bars and churches
