

# Hell No

Aaron Goodvin

Baby I know it's late but  
I've been lying here wide awake just  
Thinking 'bout me and you  
This might come out of the blue  
I can't go another night just  
Keeping all of this inside  
I don't know if you have doubts  
If you do let me lay this out

Is the way I feel ever gonna fade  
Is my heart ever gonna want to run away  
Down the road, let you go  
Hell no  
Could I ever make it thru this life  
Without you right here by my side, heaven knows  
Hell no

If there's one thing you can trust it's  
I ain't ever giving up on us no  
No matter what we're up against  
We're gonna make it that's the way it is

Is the way I feel ever gonna fade  
Is my heart ever gonna want to run away  
Down the road let you go  
Hell no  
Could I ever make it thru this life  
Without you right here by my side, heaven knows  
Hell no  
Hell no

Is the way I feel ever gonna fade  
Is my heart ever gonna want to run away  
Down the road, let you go  
Hell no  
Could I ever make it thru this life  
Without you right here by my side, heaven knows  
Hell no

Baby I know it's late  
But I've been lying here wide awake
