

# Why Not Us

Aaron Goodvin

We both believe we don't deserve this  
Oh no, too many wrongs can't make us right  
Just when we're bout to fall into a long kiss  
We push each other back and change our minds

We can't seem to outrun the pain or the past  
We don't even try cause it just won't last  
But girl this time it'd be a shame to be afraid to ask

Why not us  
Why can't we  
Be in love, just like everybody else  
We both have a heart  
Can't keep 'em in the dark  
For the rest of this night  
When there's a light shinin' in your eyes  
We just gotta trust  
That this really is love  
Why not us

Maybe the reason we've both been broken  
Is so when we get together we'd fit perfectly  
And we'd feel it right there, in the moment  
And I know you feel it too so honestly

Why not us  
Why can't we  
Be in love, just like everybody else  
We both have a heart  
Can't keep 'em in the dark  
For the rest of this night  
When there's a light shinin' in your eyes  
We just gotta trust  
That this really is love  
Why not us

We both have a heart  
Can't keep 'em in the dark  
For the rest of this night  
When there's a light shinin' in your eyes  
We just gotta trust  
That this really is love  
Baby, why not us  
Why not us
