

Over Me

Aaron Lewis

Over me
If I were you, that's where I'd be
Just the same old song
Playing on and on

Over you
That's the one thing that my heart can't do
That's right where we left it at

I could fall into an empty kiss
Find someone to sleepwalk with
But I don't know if I can be redeemed
And I'm better off in this miss-you hell
At least that's what I tell myself
All I know is I don't know where I'd be
If you were over me

Here I am
As far away as I've ever been
And closer than I ever was
To getting over me
'Cause you know damn well that's what I need
But getting over you
Would be the death of me

And I could fall into an empty kiss
Find someone to sleepwalk with
But I don't know if I can be redeemed
And I'm better off in this miss-you hell
At least that's what I tell myself
But all I know is I don't know where I'd be
If you were over me
If you were over me

I could fall into an empty kiss
Find someone to sleepwalk with
I don't know if I can be redeemed
And I'm better off in this miss-you hell
At least that's what I tell myself
All I know is I don't know where I'd be
If you were over me
Over me
Over me
Over me
