

# Sand

Aaron Lines

There's no place I'd rather be  
Than on this blanket here with you  
Watching that big red sunset  
Into a Caribbean blue  
We're sure it's hot down here  
Or maybe it's just you

Baby let's get sand  
In places sand just don't belong  
Let's let the ocean waves  
Gently serenade us  
With a sexy island song  
There's no one around  
And you keep turning me on and on and on  
Baby let's get sand  
In places sand just don't belong

Well I'm glad we stole that bottle  
From a hotel tiki bar  
And I'm glad the moon ain't out tonight  
So we can hide out in the dark  
Let's show off our tan lines  
To that endless sea of stars

Baby let's get sand  
In places sand just don't belong  
Let's let the ocean waves  
Gently serenade us  
With a sexy island song  
There's no one around  
And you keep turning me on and on and on  
Baby let's get sand  
In places sand just don't belong

Baby let's get sand  
In places sand just don't belong  
By tomorrow morning  
Baby we'll be boarding  
That plane and flyin' home  
There's no one around  
God you're turning me on and on and on  
Baby let's get sand  
In places sand just don't belong  
Baby let's get sand  
In places sand just don't belong
