

All I ever did was break bread  
They say love get you killed well shit  
I should prolly be dead  
Still got a lot on the line I done been in the blind I know if  
I'm being mislead  
Right hand on your heart say you dyin behind me dis ain't a regular pledge  
Tell me they know what it is  
Thinkin they got me but that shit ain't sliding around me  
Really gone get what you give  
I ain't gone lie you believing a lie if you doubt me  
Stand on the shit that I said  
They say you really don't know who you is  
'Til you get pushed to the edge

I say you can't ever know what it is  
Swear for the days I ain't have nun worth it under my name I'ma show em it is  
Take care of mine before I take care of myself that was part of the plot  
Free if you mine if I ever do it for anyone else I'ma charge em ' a lot  
No deal signed I get to the bank  
Can't be behind, I came outta nothin'  
I still smile when I leave the bank  
Come outside its nun but hunnids  
This what I grind for what I bled for  
Stay treatin' my fam just like my body I'm keepin 'em fed uh  
Thin line between love and hate step out it he lay in his bed

All I ever did was break bread  
They say love get you killed well shit  
I should prolly be dead  
Still got a lot on the line I done been in the blind I know if  
I'm being mislead
