

# Conceited

Aaron May

Leave a hoe I can't make her do right  
Saving niggas that's where you go wrong  
Put in work don't shit come over night  
Did a lot we don't take no advice  
I could go where I want book the plane right now  
I could run up a check and get paid right now  
Nigga say he up next but it ain't right now  
I was 19 high in a scraper  
Pourin' line after line like I'm writing a paper  
If that hoe can't be down I won't make her  
No it ain't no love in the way I'm going  
Sex, money, drugs that's all we doing  
DJ the cup I chopped & screwed it  
He ain't with us he like our music  
And I don't want speak if we ain't gettin' to it

Direct shots yeah we get straight to it  
Keep the ball rolling we stick it in motion  
Going through shit hard to keep it in focus  
Hoping that they get the picture I'm on it  
Ain't shit sweet but I want the cake no icing  
Embrace all the hate cause I know they don't like me  
Push me to the edge, yeah I'm here when it jump off  
I be dogging her out yeah I know that shit like it  
I had to unleash if I was next to 'em they still couldn't touch me  
Don't talk much them youngins just let the gun speak  
Hit his ass out of here that's a home run  
Just front your move it ain't safe not with the bull  
Don't carry tauruses I'm on the track me and May  
Uh, bitch I'm a vet like Aaron, I don't fuck with 12  
Told my bitch I want green bae, yeah my soul on fire  
But it get cold in the summer, uh  
Young nigga stiff as hell, and I'm not folding for none

Know I'm not folding for none  
Know how to go on a run  
Say what I need & its done, they gotta know I'm the one  
I came in this bitch trynna run up some funds  
No strangers in here we ain't goin for none  
My clean up good I knew what it was  
Don't shit get swept under the rug  
Know the feeling of hate coming from your own people  
Leave me, what's the reason?  
Go get even that's too easy  
Count this money up bitch I'm leading  
I ain't done enough if they breathing  
They can't run with us let 'em see me  
I ain't have shit ain't ask for it either  
Now I'm having I swear I ain't greedy  
Young and up just a little conceited
