I got me a chance so why would I pass it up
Girl I ain't comin' in last I'm runnin' the track I hope that you fast enough
Tell me do I gotta ask to make this shit last if you saw the path was rough
If I had to go to the trap and flip me a pack would you come and wrap it up?
You see me chasin' a bag
I got me a chance so why would I pass it up
Everyone say they bout this and say they bout that but they never back it up
I'm gettin' straight to the cash, you don't gotta ask cause babygirl that's for us
You know I stick to the plan, just grab on my hand cause they never catchin' up

Shorty you see how it's stackin up
Ridin' with me we gone pass em up
Give it some time, I know it's gone come
Just roll up with me while we laugh it up

New bitches I gotta back em up
All of these niggas be actors, yea I can tell they be actin up
Okay Okay

No way, no way
They say ain't no way, that I'll make it out
Fuck what they say, girl fuck what they say

And I know you want time but I'm busy
I'm trynna be that one nigga that shine in my city
You everything I want, yea you fine, yea you pretty
But I rather chase my dreams with my time, please don't tempt me
