

Last Time

Aaron May

That's fine, roll up hit the wood just to pass time, pass time
Gas dimes, had me feeling good in some bad times, bad times
Crash time, I'm just way too up can't see bad signs, bad signs
Last time, hol' up, you said that the last time

Still around where I came from
I'm just being honest
Come down to tryna change some, I don't like making promises
And I ain't saying I'm proud of this but this just something I'
m used to
Smoking out my days, always, like I used to
I coulda went out of state but I'm too faded out in Houston
Swervin out these lanes I'm in traffic tippin juice too
You ask me it ain't nun like this feelin
Thrax look a lil' taxed but it ain't nun like these millions
Money leave and come back but it ain't nun like these women

That's fine, roll up hit the wood just to pass time, pass time
Gas dimes, had me feeling good in some bad times, bad times
Crash time, I'm just way too up can't see bad signs, bad signs
Last time, hol' up, you said that the last time

Stuck in this mud
You could see the dirt under my nails when I roll up
You could hear the hurt know this shit loud I ain't said nun
Hard to say I'm broken, know its been a crazy life of living, m
ore money more sins
Losses really made me I remember, never havin' no wins
Wake up on the daily sweet and bitter, know I gotta smoke 10
Dealin with some real damage, they be saying "Don't waste yo po
tential boy, you got real talent"
They don't understand it ain't that simple when you tryna kill
habits
Goin through it on yo own it ain't hard to feel stranded
Leave me with a zip and a pack of woods all I need to live lavi
sh
Talkin to this microphone knowin I'm a real addict
40 thousand on these sessions I was supposed to drop some and I
still haven't
Thinking how it took so long, put me in a real panic
Tryna put the whole team on, promise that I'm still at it
Fuckin with the smoke, I'm gone put me inna real panic
24 hours supposed to come down rollin, I'm still landing

And that's fine, roll up hit the wood just to pass time, pass t
ime
Gas dimes, had me feeling good in some bad times, bad times
Crash time, I'm just way too up can't see bad signs, bad signs

Last time, hol' up, you said that the last time
