

# Make It

Aaron May

I hope you make it  
I hope you make it real far  
I wish you greatness and stars  
I hope you know who you are  
I pray you can take it  
Pray you can pray to the lord  
Pray he can heal up the scars  
Pray he take care of your heart  
Cause niggas don't care about you  
More than you care about you  
They never care about you  
More than you care about you  
So I hope you make it  
I hope you make it real far  
I wish you greatness and stars  
I hope you know who you are
