

## On Me

Aaron May

Yeah

Uh

Say, yeah, yeah, yeah, yeah

Paper out get way too crazy sometimes so I step back  
Losin' people may not be a fun time, but it's not a setback  
Thankful for the good and all the fun times, can't forget that  
I'll be good regardless, but your sunshine I been tryna get that back

Ain't too much of that to catch across the map

I got feels

That the type of shit my future might attract

I got business going out, it ain't never coming back

Had to ride around with that strap

Watch my heart and watch my back

Got me thinking 'bout my past decisions

How I turned rags to riches

How I came up and now I'm bragging different

You got me thinking 'bout my bad decisions

How I been actin' different

If attention paid, I gave you back commission

When I'm on the road, you probably think I'm baggin' bitches

You ain't even know, I been thinking 'bout how bad I'm trippin'

Sometimes I get cold, but I ain't got no bad intentions

Promise Ima hold my own, no one gotta have suspicions

Ima give my all when it's all on me

Bitch you on the phone, you don't call on me, baby

It's been way too long and that's all on me

Know I did you wrong, put that all on me, baby

If I ever fall then it's all on me

If I never fall then it falls on me, baby

This ain't no lil song, just a song on me

I'm acknowledging my wrongs

Let it fall on me, let it fall on me
