

## Rush

Aaron May

I'm gettin up what they want from a nigga  
I'm gettin dubs but them losses came with em  
I could really tell you what it mean to be alone baby  
I never judge I been cropped out the picture  
Higher than before ain't even trippin on a buzz baby  
I'm inna rush for a lot, not a little

I know the plug, I, don't talk to the middle  
I'm sippin mud this shit cost more than liquor  
And I don't need the love long as mine gettin richer  
Cosign don't mean shit to me I remember who was with us  
Remember who was there  
If I ain't have this paper then they probably wouldn't care  
But if I ain't have this paper then I probably wouldn't be here  
I just know I'm worth some more than this when I look in the mirror  
I been growing getting closer when I drive ain't gotta steer  
Tryna take the right way, I ain't gotta fear nun  
I know what they might say, I ain't gotta hear nun  
I been goin my pace, get it how I live huh

I'm gettin up what they want from a nigga  
I'm gettin dubs but them losses came with em  
I could really tell you what it mean to be alone baby  
I never judge I been cropped out the picture  
Higher than before ain't even trippin on a buzz baby  
I'm inna rush for a lot, not a little

You prolly wouldn't understand the way I feel  
It took a lot of risk and long nights to even get me here I been on t  
he board holding my own and still ain't sign a deal put me up next to  
these other niggas I'll be bigger  
Why they scared of me if it wasn't for all the name and all the hype  
they would be dead to me  
Blinded by the smoke and mirrors niggas ain't ahead of me tired of ni  
ggas faking acting like they really there for me like you really care  
for me  
I been on some different shit I can't ever act like I'm the same I do  
n't be fitting in  
I know niggas talk and be doubting me I don't ever hear it  
Out here on my own hope it's the same when shit start getting big kee  
p the shit the way it is  
I been getting closer than I ever been  
I hope you know it's up  
The day they let me in  
I'm in a rush I can't control it  
I been MIA but they still notice  
This shit sowed in

I'm gettin up what they want from a nigga  
I'm gettin dubs but them losses came with em  
I could really tell you what it mean to be alone baby  
I never judge I been cropped out the picture

Higher than before ain't even trippin on a buzz baby  
I'm inna rush for a lot, not a little
