

Where I'm From

Aaron May

Choose wise ain't no being in the middle
Blue knots I be really trynna get 'em
Point five I remember stacking nickels uh
On top ain't no being sentimental
Can't lie everybody know the feeling
But why buy love only up for rental uh
And I can't find no better leisure than this
I'm gone, main reason I be off strong
Get me right it don't take long uh
Whole lotta money on foam
Only going off what I known and I done seen fucked up shit
My partner got shot it been fucked up since
Now I don't leave the house without a tucked up clip uh

I could show the world that I'm having
Tell me what the fuck do that mean
Way I see it every body average shit ain't ever really what it seem
Still ain't letting go of my habits guess I rather live in my dreams
Love or lust I ain't ever in between
Gettin' money if it's dirty or it's clean
If I sign only did it for the team, put my niggas on
Started for the love but now it's for the judge to let my people stay home u
h
I give ma a dub but she just want her son to leave them drugs alone
Everybody know the life that I chose
I ain't never gone forget where I'm from
I ain't never gone forget where I'm from
I ain't never gone forget where I'm from

Same plan I ain't going with the motions
Made man wouldn't know if I was broken
Take chances should be the only focus
Who was riding with me back when I was walkin'
Being honest you know I got it going
So who would help me get it back if I had lost it
Questions I ain't asking, I don't want an answer, know I don't believe in no
ne
They just wanna cash in, hold my love for ransom, promise you ain't taking n
one from me
Everything I did for me did it myself
Everything I did for you did it out of love
Go through what I been through to see what I felt
Can't see me as I am without knowing what I was uh

I could show the world that I'm having
Tell me what the fuck do that mean
Way I see it every body average shit ain't ever really what it seem
Still ain't letting go of my habits guess I rather live in my dreams
Love or lust I ain't ever in between
Gettin' money if it's dirty or it's clean
If I sign only did it for the team, put my niggas on
Started for the love but now it's for the judge to let my people stay home u
h
I give ma a dub but she just want her son to leave them drugs alone
Everybody know the life that I chose
I ain't never gone forget where I'm from
I ain't never gone forget where I'm from

I ain't never gone forget where I'm from
