

Good Thing

Aaron Pritchett

It's a good thing you ain't put on your lipstick
'Cause girl I'd just kiss it right off
And it's a good thing that we ain't in a hurry
'Cause we might be here all night long
So play a song that makes you dance
Kill the lights, feels right, just like

Rain on a rooftop, laid back Sunday
Ice cold beer on a clocked out Monday
Sand on your toes with the blue ocean view
Baby, you know me and you got a good thing
A good thing, a good thing, a good thing, yeah
Me and you baby got a

Jack and Diane, Johnny and June
You can't think of one and not think about the other
I love your lover there'll never be another
Ain't nothin' better, no, we go together like

Rain on a rooftop, laid back Sunday
Ice cold beer on a clocked out Monday
Sand on your toes with the blue ocean view
Baby, you know me and you
We're like a downtown bar and a real good cover band
Riding down the road, left hand in my right hand
Laughin' and lovin' that's just what we do
Baby, you know me and you got a good thing
A good thing, a good thing, a good thing, yeah
Me and you baby got a
A good thing, a good thing, a good thing, yeah

G-O-O-D you and me
Baby, you and me
We (G-O-O-D) got a good thing
You and me

Rain on a rooftop, laid back Sunday
Ice cold beer on a clocked out Monday
Sand on your toes with the blue ocean view
Baby, you know me and you
We're like a downtown bar and a real good cover band
Riding down the road, left hand in my right hand
Laughin' and lovin' that's just what we do
Baby, you know me and you we got a good thing
A good thing, a good thing, a good thing, yeah
Me and you baby got a
A good thing, a good thing, a good thing, yeah
Me and you baby got a
A good thing, a good thing, a good thing, yeah
Me and you baby got a
A good thing, a good thing, a good thing, yeah
