

I Want to Be in It with You

Aaron Pritchett

When your throwing wishes at the stars,
And singing along with the radio in your car,
I want to be the one singing every song with you,
When your favorite movies on again,
There's only one person you can watch it with,
I want to be the leading man that your heart runs to,
When you close your eyes and dream,
Tell me what you see,

Who's standing there right by your side,
Gets to get lost in your eyes,
Hold your hand,
Put a smile on your perfect face,
Who gets to carry you away every single day,
When that picture that you picture comes true,
I want to be in it with yyooou.....
I want to be in it with yyooou.....

I want to wonder with you on a beach,
And watch the sunset melt into the sea,
Hold you as the summer sky turns dark,
And when there's storms along the way,
Your more than stretched and you feel like you could break,
I'll hold you together baby in my arms,
When someone gets to share your life,
I want to be that lucky guy,

Who's standing there right by your side,
Gets to get lost in your eyes,
Hold your hand,
Put a smile on that pretty face,
Who gets to carry you away every single day,
When that picture that you picture comes true,
I want to be in it with yyooou.....
I want to be in it with yyooou.....

I want to be the one that drives you crazy,
Calms your fears,
Makes you cry those happy tears,
The one who kisses you through the years,
I want it to be me...

Who's standing there right by your side,
Gets to get lost in your eyes,
Hold your hand,
Put a smile on that perfect pretty face,
Who gets to carry you away every single day,
When that picture that you picture comes true,
I want to be in it with yyooou.....
I want to be in it with yyooou.....
I want to be in it with yyooou.....
I want to be in it with yyyooouuu.....
