

Never Seen Me Like This

Aaron Pritchett

I've seen me still up at sunrise
I've some nights in my car
I've seen me have one too many
Get tossed out the bar
I've seen me sayin', "I'm sorry"
And not knowin' what I did wrong
Seen some pictures that I don't remember
I found on my found

[?] everything I saw
You'd think I've seen it all

Even I've never seen me like this
First time feelin' comin' off your lips
Look what you started, girl
Look what you did
Even I've never seen me like this
Love-drunk, all stoned
Never been high like the high I'm on
Look what you started, girl
Look what you did
Even I've never seen me like this

I've never seen me like me when I'm with you
It's a new kinda [?] my mind
Since I met you, my vision stays doubled
And blurred all the time

And I think I kinda like it

Even I've never seen me like this
First time feelin' comin' off your lips
Look what you started, girl
Look what you did
Even I've never seen me like this
Love-drunk, all stoned
Never been high like the high I'm on
Look what you started, girl
Look what you did
Even I've never seen me like this

I'm too far gone and you're the reason
But I like this new me that I'm seein'
I'm too far gone and you're the reason
But I like this new me that I'm seein'

Even I've never seen me like this
First time feelin' comin' off your lips
Look what you started, girl
Look what you did
Even I've never seen me like this
Love-drunk, all stoned
Never been high like the high I'm on
Look what you started, girl
Look what you did
Even I've never seen me like this
