

Warm Safe Place

Aaron Pritchett

I feel like an old guitar
Lookin' for some brand new strings
I never thought I'd get this far
Without savin' anything for me
Do you still have that smile for me?
And could I stay here for a while?

I'm lookin' for a warm safe place
To feel your hand on my face
Let the past roll off of back
Baby, let's not talk about that
I just want to make it
through the night
Lock the door and hide away
I'm lookin' for a warm safe place

I'm too young to pack it in
And too damn old to
weather this wind
The rain it just wont stop it seems
And I'm too stubborn
to quit these dreams
But with you I can
finally find some peace
With you, come here,
lay down next to me

I'm lookin' for a warm safe place
To feel your hand on my face
Let the past roll off of back
Baby, let's not talk about that
I just want to make it
through the night
Lock the door and hide away
I'm lookin' for a warm safe place

With you there is shelter
from the storm
With you
can I just stay here in your arms?

I'm lookin' for a warm safe place
To feel your hand on my face
Let the past roll off of back
I don't even wanna talk about that
I just want to make it
through the night
Lock the door and hide away
I'm lookin' for a warm safe place
