In Command

Aaron Shust

When all I've known moves under me like shifting sand
And I'm undone without a place where I can stand
The waves and the stars
Show me He's in command
I see His loving care within a baby's eyes
Revealing power when He tells the sun to rise
So much greater than me
He's in command

He's got the whole world in His hands
Where else would we go?
Where else would we go?
He's got the whole world in His hands
Where else would we go?
Where else would we go?
He's in command
He's in command

When those who came before me faced the mighty sea
And human weakness, terror, fear, anxiety
Your arm was strong to save
And You still haven't changed
You still haven't changed

He's got the whole world in His hands
Where else would we go?
Where else would we go?
He's got the whole world in His hands
Where else would we go?
Where else would we go?
He's in command
He's in command

Say what you will (He rules)
Say what you will (He reigns)
Say what you will (He sees)
Say what you will (He cares)
Say what you will (He rules)
Say what you will (He reigns)
Say what you will (He knows)
Say what you will (He lives)

Say what you will (He rules)
Say what you will (He reigns)
Say what you will (He sees)
Say what you will (He cares)
Say what you will (He rules)
Say what you will (He reigns)
Say what you will (He knows)
Say what you will

He's got the whole world in His hands
Where else would we go?
Where else would we go?
He's got the whole world in His hands
Where else would we go?
Where else would we go?

You're in command
You're in command
You're in command
You're in command
