

Can't Last Forever

Aaron Sprinkle

I couldn't fight it couldn't win
Nails are broken digging in
I found the key to your deception
But I failed to get direction
Yes I guess I made it through
Barely working thanks to you
If it's one more go I just don't know
If I could stay to see the show

If you ever try to steer
You will find me
Here cause what is left is getting thin

We better hold on
Something's about to give under
The weight of this
Can't last forever, forever
Shake me until I'm wide awake
It's more than I can take
Can't last forever, forever

My ears are ringing, head is spinning
From the feeling I've been getting
Paper castle in my chest
Protect my heart please do your best
I'm feeling borrowed, feeling blue
You didn't notice shame on you
My fire is dying going out
This bridge is burning to the ground

If you ever try to steer
You will find me
Here cause what is left is getting thin

We better hold on
Something's about to give under
The weight of this
Can't last forever, forever
Shake me until I'm wide awake
It's more than I can take
Can't last forever, forever

Take it back, say it never was, never was
Never was, never was
Take it back, say it never was, never was
Never was, never was

We better hold on
Something's about to give under
The weight of this
Can't last forever, forever
Shake me until I'm wide awake
It's more than I can take
Can't last forever, forever
