

Invincible

Aaron Sprinkle

You learned along the way, but you never fall far from heart
Managed to make it to the top even though you got bit too hard
They won't believe you with no evidence
They will relieve you of your common sense
I always thought you were invincible
Casting a shadow that was ten feet tall
Made it from nothing but a broken heart, a world apart, a humble start
Got sick of looking up at something that you could make your own
Now you sow the seeds of a world that you can't control
How do you look and face the ignorance?
How do you sleep in such a dehiscent
I always thought you were invincible
Casting a shadow that was ten feet tall
Made it from nothing but a broken heart, a world apart, a humble start

Do we have to wait till we move them all?
Do we have to wait for the mighty to fall?
Do we have to wait till we move them all?
Do we have to wait for the mighty to fall?
When you fall in the mystery will you give me back my heart?
Will you hate all the love we gave?
Will you make it very far?
You didn't have to be invincible
You got your shadow and a place to go
Just when you thought it was under control, it falls apart
It falls apart
I always thought you were invincible
Casting a shadow that was ten feet tall
Made it from nothing but a broken heart, a world apart, a humble start
