

# Whisper Something

Aaron Sprinkle

I'm the one who can't believe in nothin 'less it's right in front of me  
Right in front of me  
You jumped the gun and you underestimated who you were supposed to be  
You were supposed to be  
Uh huh  
You were the one  
You got underneath my skin and then you broke into my heart  
You broke into my heart  
I tried to run but I don't understand the things you do oh  
You do oh

Close your soft eyes  
While I whisper something  
Hold on so tight  
Let me find the words  
Don't let go now  
While I whisper something  
We'll make it somehow  
Let me find the words

And I say I gave it a real try  
And you say you're not gonna sleep tonight  
I say I gave it a real try  
But you swear you're not gonna sleep tonight

Close your soft eyes  
While I whisper something  
Hold on so tight  
Let me find the words  
Don't let go now  
While I whisper something  
We'll make it somehow  
Let me find the words

I'm sick of pretending I got it all figured out  
I never tried not to see  
You never tried not to believe

Close your soft eyes  
Hold on so tight  
Let me find the words  
Don't let go now  
While I whisper something  
We'll make it somehow  
Let me find the words

Close your soft eyes  
While I whisper something  
Hold on so tight  
Let me find the words  
Don't let go now  
While I whisper something  
We'll make it somehow  
Let me find the words
