

# Bloom

Aaron Taos

I've been crushing hard, thumping in my heart  
When I look your direction  
I see you peeking back, lips on the glass  
Ooo I wanna be that beverage  
But it's complicated, you're the sister of my friend  
I'm so tired of waiting, why don't we give in?  
And I'm like ooo, I know you want me too  
Lead me to your room, we know just what to do

When the flowers are in bloom  
Why just pass on through?  
When the flowers are in bloom  
I wanna lay with you

Known you for a while, since I was a child  
You were my main obsession  
We were family friends, how could I forget  
The first time that I met ya?  
Those summers spent planted seeds inside my heart  
But the context ended it before it all could start  
Now it's alright, we had to give it time  
To grow in the sunshine, but now spring has arrived

When the flowers are in bloom  
Why just pass on through?  
When the flowers are in bloom  
I wanna lay with you

Roses are red and violets are blue  
But I don't really care if I don't have you  
Said roses are red and violets are blue  
But I don't really care, when love is in the air  
Said roses are red and violets are blue  
But I don't really care if I don't have you  
Said roses are red and violets are blue  
But I don't really care

When the flowers are in bloom  
Why just pass on through?  
When the flowers are in bloom  
I wanna lay with you

When the flowers are in bloom
