

Communication

Aaron Taos

Let's talk about it, let's ease your mind
I don't like leaving things behind
It ain't so easy, just speak the truth
Alright now, it's just me and you

So let's dive in deeper
Ooh, you're such a sleeper, babe
Believe your dreams but you don't believe me
I won't mislead ya, you're so un-eager, babe
But if we're gonna work this out please

We need communication
We need communication
You start by bein' patient
Please don't be complacent

Let's get into it, let's start to hear
See, we've been through it and there are shouldn't feel
You know I love you, you feel the same
But right now we're in a losing game

So let's turn off the TV, forget the shows
I blame my parents, they were terse in their approach
You got your issues and I got mine
But if we're gonna work this out right

We need communication
We need communication
You start by bein' patient
Please don't be complacent

We need communication
We need communication
You start by bein' patient
Please don't be complacent
