

Only One

Aaron Taos

Got myself a good thing
Feeling like it's cocaine
Man, I'm so high
She my little low flame
Add a bit of propane, set me on fire

God as my witness, I ain't never said this
But I think I'm done
I never want another love
She the girl that I'm thinking of

She's the only one, she's the only
She's the only one, she's the only
She's the only one, she's the only
She's the only one, she's the only

My daddy was a player, women by the acre
Always had a fling
He said time your time boy
Lotta things to try for before you buy a ring

But God as my witness, think I might be finished
Dad, I had my fun
I never want another love
She got me out good, she know

She's the only one, she's the only
She's the only one, she's the only
She's the only one, she's the only
She's the only one, she's the only

She's the only one, she's the only
She's the only one, she's the only
She's the only one, she's the only
She's the only one, she's the only
She's the only one

Find me when the lights are down low
I'll be waiting for you, I'll be waiting for you
Maybe we are moving too fast
But I wanna make this last, I wanna make this last

Find me when the lights are down low
I'll be waiting for you, I'll be waiting for you
Maybe we are moving too fast
But I wanna make this last, I wanna make this last

She's the only one, she's the only
She's the only one, she's the only
She's the only one, she's the only
She's the only one, she's the only

She's the only one, she's the only
She's the only one, she's the only
She's the only one, she's the only
She's the only one, she's the only
She's the only one
