

# Twisted

Aaron Taos

When I see you I get all shook up and my eyes start blurring down

Head high off a Brooklyn buzz with my nerves all tweaking out  
Still it feels like paradise when your lips press down so slow  
You chew me up then you spit me out like some gum or tobacco  
Got me singing like

I don't know what it is  
But your love has got me twisted  
Stone cold like I'm a kid  
Off my dad's alcohol cabinet  
I'm young and I'm listless  
To your love is in my blood  
Ooh girl, you got me twisted  
You got me twisted  
You got me twisted

Now I'm tripping all over myself plus I'm stuttering and talking fast

Got the spins I could use some help but when I ask you just start to laugh  
Still it feels like paradise when your lips press down so slow  
You're so hot 'til you had enough then you're cold like an eskimo  
Got me singing like

I don't know what it is  
But your love has got me twisted  
Stone cold like I'm a kid  
Off my dad's alcohol cabinet  
I'm young and I'm listless  
To your love is in my blood  
Ooh girl, you got me twisted  
You got me twisted  
You got me twisted  
You got me twisted

I don't know what it is  
But your love has got me twisted  
Stone cold like I'm a kid  
Off my dad's alcohol cabinet  
I'm young and I'm listless  
To your love is in my blood  
Ooh girl, you got me twisted  
Ooh girl, you got me twisted
