

# Underneath

Aaron Taos

I had a vision up in the hills  
The wind was speaking and it gave me chills  
What good is trying if you're only left crying?  
And the higher you climb makes you ill  
Ya

I sit and wonder 'bout the roads we leave un-tred  
We live in worlds that only exists in our heads  
Still I feel love and it's a love that never ends  
Ya

Cause it's all underneath  
It's all underneath  
It's where the eye can't see  
But it's there running deep  
It's all underneath

Don't know the reason  
Don't know the how  
But I can feel it and it's freakin' me out

Why always worry?  
Quick to hurt in a hurry  
That's just a pain coming early  
No doubt

I sit and think about the folks we leave behind  
We say they're gone, but deep down know' that's a lie  
I feel their love, and it's a love that cannot die  
Ya see? No

Cause it's all underneath  
It's all underneath  
It's where the eye cant see  
But it's there running deep  
It's all underneath
