

Her

Aaron Tippin

What makes me get up every mornin'
When I can't find the will?
And what keeps me goin' through the motions
When all my dreams are standing still?

Why do I try so hard?
How did I get this far?
What is the bottom line each and every time?

I do it for her
An' it's all about her
God knows she gives me more than I deserve
Every thought I think
Every breath I breathe
Everything that I hold dear to me
Revolves around one simple little word
Her

There's times I take it all for granted
Just how fortunate I am
Ooo, God knows it took a better woman
To make me a better man

Oh, sometimes it don't show
Don't always let her know
What I couldn't live without
I know there ain't a doubt

I do it for her
It's all about her
God knows she gives me more than I deserve
Every thought I think
Every breath I breathe
Everything that I hold dear to me
Revolves around one simple little word
Her

She's my life's work
And for all that it's worth
I do it for her
It's all about her
(Aaa)
Oh, God knows she gives me more than I deserve
Every thought I think
Every breath I breathe
Everything that I hold dear to me
Revolves around one simple little word
Her
Talkin' 'bout her
