

## The Route That I Took

Aaron Tippin

I've traveled millions of times  
Hung with good and bad crowds  
Been on top and went down low too  
Paid off some long overdues  
Held the king and bad news  
And I've been lonesome a time or two

I've been lost in the whiskey  
Did some running on empty  
I've lived hard, it's all in the move  
But the lines on my face  
Ain't the miles that you see  
It's just the route that I took

Change some things if I could  
I just don't know if I would  
My roots, have been rough and smooth  
Remember where I came from  
Just not home, that I've gone  
It's not much, I haven't lived through

I've been lost in the whiskey  
Did some running on empty  
I've lived hard, it's all in the move  
But the lines on my face  
Ain't the miles that you see  
It's just the route that I took  
It's just the route that I took
