

Crazy

Aaron Watson

Saw you early this morning
Sleeping all dressed in white
And for a moment I thought
You were an angel
Come to take me home alive
You woke up and caught me staring
Then smiled and said, "Hey, cut it out"
You said that I must be crazy
I said crazy bout you
Then I kissed you on the mouth

If I am truly crazy
Don't you know I like my life that way
If I'm really going on out of my mind
Would you hop on board and make your getaway

I took a walk down by the sea shore
I saw a poor man picking up some cans
I saw a little who had some
Salt water in his eyes
Reaching out for his mama's hands

And I watched a stranger give that man a dollar
Watched the mama wipe the tears
From that little boy's eyes
And I stared up into the heavens
I said, "Oh my God, I'm glad that I'm alive
Glad that I'm alive"

If I am truly crazy
Don't you know I like my life that way
If I'm really going on out of my mind
Would you hop on board and make your getaway

Wake up in the morning and turn all the lights on
Turn 'em out at night so that we can hide
Sometimes I sleep with all the lights on
Yeah it helps me to appreciate the night
I hear people about life all the time
How they remember they times so sad
Don't you think life would be awful boring
If the good times were all that we had

If I am truly crazy
Don't you know I like my life that way
If I'm really going on out of my mind
Would you hop on board and make your getaway

And if I am truly crazy
Don't you know I like my life that way
If I'm really going on out of my mind
Would you hop on board and make your getaway

Baby hop on board and make your getaway
Getaway
